According to a dictionary definition, community is a group of people living in the same place or having a particular characteristic in common and sharing common attitudes, interests, and goals. I believe that a community is a place or a group of places, people and any living things combined together to form a big place and share their thought, feelings and have their right to freedom. In my community, Cleveland, Ohio, we make our community a good place to live, and have any right. And, we welcome every foreign people to stay and be educated to achieve their goal, because we all achieve our goal by allowing people to achieve their goals and work together to spread peace, and we cooperate and understand each other.
